JUMS 3.0 UPDATE

JUMS 3.0 will be distributed on a CD which contains auto-run, a JUMS HOW TO tutorial that can be copied to your computer hard drive or network server, extensive help files and the ability to convert JUMS 2.4 (JOINT-JUISS) data. It also has numerous cadet reports and required unit reports, such as Academic Credit, America's Promise, Enrollment Reports including the ability to manually enter second semester projections for schools on block scheduling, and the Management Control Report, to name a few. Reports in this program can be exported to Microsoft Word, Excel, or Access, and many reports can be copied to ADHOC and customized by adding or removing fields.

Frequently Asked Questions

The new curriculum is <u>less dependent</u> than the previous curriculum on audio visual. The CD's are <u>nice but not necessary</u>. The projection equipment has been validated in the FY 04 POM because it can now be justified. It is not yet funded.

Instructors who do not have equipment or choose not to use it should select the low end option that is available in all lessons. Many instructors working with the new curriculum are choosing not to use the CD even if they have the equipment - it is not really necessary.
